

SUBARU

WRX

Precision Tool

With its 2.4-litre turbocharged SUBARU BOXER® engine and broad torque curve, the WRX puts power right where you need it. No matter how you shift, the connection is immediate, thanks to a six-speed manual transmission or the available Subaru Performance Transmission with paddle shifters.

The WRX delivers more of what it's already built its name on: precision and control. Its point-and-shoot 13.5:1 steering ratio works in unison with standard Subaru Symmetrical Full-Time All-Wheel Drive to make manoeuvres feel intuitive.

Meticulous engineering went into honing the WRX. The latest Subaru Global Platform provides improved rigidity for better handling and safety. This is paired with a track-tuned suspension to deliver stability and confidence.

**Two ways to satisfy that
performance obsession.**

WRX tS

It's the WRX in its purest form, and you can only get it with a manual transmission. Striking to look at, with Crystal Black silica exterior accents, the WRX tS also delivers striking performance, thanks to STI-tuned, electronically controlled dampers, exclusive 19-inch wheels and a suspension with stiffer springs. Authoritative braking power is delivered by gold-finished Brembo^{®1} six-piston front and two-piston rear monoblock calipers and cross-drilled rotors. Fine-tune the way your WRX drives with the Drive Mode Select feature, providing customizable handling and responsiveness. Strap into the blue-bolstered Recaro^{®2} seats and get to know the true spirit of the WRX.

WRX GT

Push your custom-tailored experience even further with the WRX GT. With its available Drive Mode Select feature, you can personalize the dynamics of your drive by choosing from four preset options—or go rogue in Individual Mode. Precision and performance are heightened by electronically controlled dampers and the Subaru Performance Transmission, which is engineered to upshift and downshift with immediacy.

The fastest way to unwind.

1 Ultrasuede® is a registered trademark of Toray Industries Inc. 2 tS, Sport-tech and GT trims only. 3 Apple CarPlay® is a registered trademark of Apple Inc. 4 Android™ is a trademark of Google LLC 5 Harman Kardon® is a registered trademark of Harman International Industries Inc.

Comfort at its most thrilling.

Inside the WRX, every detail caters to the driver's intuition—from its soft-touch materials to the D-shaped steering wheel. You'll feel that synergy in the available Ultrasuede®¹ seats², keeping you snugly in place through tight turns. And you'll interact seamlessly, thanks to an 11.6-inch touchscreen providing access to SUBARU STARLINK® smartphone integration with Apple CarPlay®³ and Android™ Auto⁴ integration. Ease and versatility extend beyond the driver's seat to the spacious cargo area and 60/40 rear seats, making the WRX capable of much more than weekend joy rides.

Generous rear legroom

Wireless Apple CarPlay®³

60/40-split flat-folding rear seatback

Harman Kardon®⁵

Give your soundtrack the treatment it deserves with the available 11-speaker Harman Kardon®⁵ premium audio system².

Trunk Space

There's room for the day-to-day in this sports car. Its large 354-litre trunk with a wide opening makes loading struggle-free.

Splitting hairs to raise yours.

Down to its core, the WRX is engineered to perform. It's built on the Subaru Global Platform, which provides high torsional and suspension mounting rigidity for tighter handling. Delivering blazingly fast upshifts and downshifts, the Subaru Performance Transmission¹ uses shift logic to downshift before a turn, hold a gear through the turn and upshift at precisely the right moment—all automatically. Even the rally-inspired styling of the WRX is functional, and its air vents, cladding texture and underbody covers all help improve aerodynamics.

Accelerate your work-life balance.

Only a WRX feels like a WRX.

The experience of driving a WRX is unmistakable. And it starts even before you put your foot on the gas.

D-shaped Steering Wheel

With stylish red stitching accents, this ergonomic, leather-wrapped steering wheel puts you in control.

Sport Gauges with LCD Display

Inside the GT and tS trims¹, drivers can choose a display mode for the 12.3-inch full LCD digital gauge cluster based on the information they want to see. Plus, a boost gauge helps you stay informed about what's happening under the hood.

Paddle Shifters

Tap into that feeling of control you get from shifting with the available Subaru Performance Transmission, featuring conveniently placed paddle shifters².

SI-DRIVE^{®2,3}

This technology lets you custom-tailor the driving character of the WRX and includes Intelligent Mode for optimal efficiency, Sport Mode for linear response and Sport# Mode for an even greater thrill. The WRX GT and tS add Drive Mode Select, with customizable Track and Individual settings that allow you to adjust the behaviour of the engine, steering, suspension, All-Wheel Drive, EyeSight^{®4} and climate controls.

¹ tS shown. ² Sport and GT trims with Subaru Performance Transmission only. ³ Sport with Subaru Performance Transmission shown. ⁴ EyeSight[®] is a driver assist technology, which may not operate optimally under all driving conditions. The driver is always responsible for safe and attentive driving. System effectiveness depends on many factors, such as vehicle maintenance, weather and road conditions. See Owner's Manual for complete details on system operation and limitations. ⁵ Automatic Emergency Steering is a system designed to assist the driver. It is not a substitute for safe and attentive driving. Automatic Emergency Steering works in conjunction with and after Pre-Collision Braking has been activated by providing steering support at speeds of approximately 80 km/h and lower to try and help avoid a collision. See Owner's Manual for complete details, including important system limitations. ⁶ System functionality varies by transmission type. See your Subaru dealer for details. ⁷ The DriverFocus Distraction Mitigation System is a driver recognition technology designed to alert drivers if their attention to the road wavers or if the driver's face appears to turn away. The driver is always responsible for safe and attentive driving. System effectiveness may be affected by articles of clothing worn on the head or face. See Owner's Manual for complete details on system operation and limitations.

An extra set of eyes every time you drive.

EyeSight® Driver Assist Technology⁴ is standard on every WRX, including those with manual transmissions. This suite of systems is designed to watch the road ahead, alert you and even intervene if necessary. EyeSight includes Automatic Emergency Steering⁵, which can help you avoid a collision by providing automatic steering and pre-collision braking support if it determines there's enough space in the lane of travel to intervene.

Pre-Collision Braking^{4,6}

A driver ahead unexpectedly hits the brakes or cuts you off. EyeSight warns you, applies brakes and, at lower speeds, can even help you stop your WRX.

Lane Departure and Sway Warning with Lane Keep Assist^{4,6}

You accidentally drift to the edge of your lane and begin to cross into another. EyeSight watches for lane markers and chimes to warn you, and it can even apply gentle steering inputs to help keep you in your lane.

Adaptive Cruise Control with Lane Centring Assist^{4,6}

This system can automatically keep you centred in your lane, safely behind the car in front of you—even in traffic and around curves.

Pre-Collision Throttle Management^{2,4}

Can reduce your engine power to help give you more time to react and to help minimize the possible impact force and frontal impact damage.

Creating safer roads by reducing distracted driving.

Subaru is taking on one of the biggest issues in the automotive industry: distracted driving. The WRX features an award-winning, state-of-the-art safety system that helps reduce distracted driving for both new and experienced drivers. Working with EyeSight⁴ Driver Assist Technology, DriverFocus™⁷ is like having an attentive co-pilot along for the ride, ready to give a helpful alert if a driver becomes distracted or drowsy.

Subaru Warranties

Every Subaru vehicle is designed and built to offer our customers the highest possible level of quality and reliability. We are proud of our vehicles and proud to stand behind them with a comprehensive warranty. For 2025 model-year vehicles, the warranty on all Subaru vehicles consists of the following:

New Vehicle Limited Warranty (36 month/60,000 km) – Covers basic and major components for 36 months or 60,000 km.

Major Component Limited Warranty (60 month/100,000 km) – Extends coverage of major components (more than just powertrain) up to 60 months or 100,000 km.

Surface Corrosion Limited Warranty (36 month/60,000 km) – Covers surface corrosion to visible painted body panels for 36 months or 60,000 km.

Anti-Perforation Limited Warranty (60 month/unlimited km) – Covers perforation due to corrosion to body sheet metal panels for 60 months, regardless of kilometres.

Emission Control System Limited Warranty – Covers some emissions components for 36 months or 60,000 km and the major parts of the emission control system for 96 months or 130,000 km.

Parts and Accessories Limited Warranty – Covers Subaru parts and accessories installed by the Subaru dealer prior to retail delivery of the vehicle for 36 months or 60,000 km, and Subaru parts and accessories installed by the Subaru dealer after the retail delivery of the vehicle for 12 months or 20,000 km from the date of the installation.

The above information is an overview of warranty coverage and is not a warranty statement. If you wish to see more details regarding Subaru warranties, please refer to your Subaru warranty booklet, contact your local Subaru dealer or visit our Web site at subaru.ca.

Subaru 360 C.A.R.E. Program (36 months/unlimited km)

Access to dedicated Subaru 360 C.A.R.E. (Customer Assistance for Roadside Emergencies) Roadside Assistance Services, which includes access to 1,000 CAA and AAA offices throughout Canada and the United States. In addition to towing, coverage also includes Fuel Delivery, Battery Boost, Flat Tire Service, Lock-Out Service, Trip Accident & Mechanical Breakdown Assistance Service, Winching and Extrication Service, Personalized Trip Planning and Routing, Theft and Hit-and-Run Reward, and Arrest Bond Certificate.

The above information is an overview of services. If you wish to see more details regarding Subaru 360 C.A.R.E., please visit our Web site at subaru.ca.

Subaru Protection Plan

As a Subaru owner, you have expectations for a pleasurable, trouble-free ownership experience – now and into the future. Once your 36-month/60,000-km New Vehicle Limited Warranty period ends¹, our Subaru Protection Plan (SPP) – the only vehicle service contract endorsed by Subaru Canada for Subaru vehicles – can prolong your hassle-free ownership experience with three levels of extended service contract coverage tailored to your needs: Powertrain Protection; Major Protection; or Complete Protection (best level of coverage to complement the 60-month/100,000-km Major Component Limited Warranty). SPP offers comprehensive mechanical and electrical coverage and a number of additional features and benefits, such as Roadside Assistance and Alternate Transportation, for up to 7 years or 160,000 kilometres from your vehicle's in-service date. Whether your vehicle is purchased or leased, SPP protects you and your investment. Be sure to ask your Subaru dealer for details or visit subaru.ca.

¹ If you already own a Subaru vehicle and it is still within the 36-month/60,000-km New Vehicle Limited Warranty period, you are still eligible for SPP.

Vehicle shown with optional accessories.

Subaru vehicles are uniquely designed to get out there more and to leave less behind. We build our vehicles for maximum longevity, because more time spent on the road equals less time spent in junkyards and landfills. In fact, 97% of our vehicles sold in Canada over the last 10 years are still on the road today¹. You'll also find very little waste created in the production of a Subaru. Many of our vehicles are built in the Subaru of Indiana Automotive, Inc., (SIA) factory, which was the first manufacturing facility in the U.S. to achieve zero-landfill status. Other Subaru facilities around the world now achieve similar goals in helping to preserve the environment. Respect for our surroundings is yet another way that Subaru vehicles help to build driver confidence for the road ahead.

¹ Based on S&P Global Mobility Vehicles in Operation as of June 30, 2024 for Model Years 2015 to 2024 vs. Total New Registrations of those vehicles.

For a detailed list of specifications, features, accessories, and model comparisons, please visit Subaru.ca or your nearest authorized Subaru Dealer.

The Supplemental Restraint System (SRS airbags) affords the driver and passenger additional protection in some collisions. This system provides supplemental protection only, and seatbelts must be worn in order to avoid injuries to out-of-position occupants upon airbag deployment. The combination of SRS and seatbelts provides the best protection in a serious accident. All illustrations, specifications, features and photographs contained in this brochure are based on product information available at the time of its printing and may not be completely accurate following its publication. For the most up-to-date and detailed product information, log on to www.subaru.ca. Subaru Canada, Inc. has made every effort to ensure that the digital colours displayed offer the most accurate representation of actual vehicle colours. Digital colours shown may not accurately depict colours as they appear in person because of screen quality or viewing light. Some vehicle parts cannot be shown in certain photographs. For complete details on vehicle parts and colours, please contact your Subaru dealer. Subaru Canada, Inc. reserves the right to discontinue or make changes at any time, without notice or incurring obligations, to colours, materials, equipment, accessories, features, specifications and models, or to change their prices. Some models shown may be from international markets and are not available in Canada; may be shown with equipment or accessories that are optional (at extra cost) or available only in certain combinations; or may be subject to product delays or not be available in Canada.
